

The Strawberry Fields Campsite: This our newest campsite. The strawberry Fields Campsite is a beautiful secluded field Near Hawkhurst is East Sussex, near the Kent border. The campsite also features the separately hireable Dell In The Woods.

The Dell Campsite is set in an old clay pit that now has lots of lovely Hornbeam trees. We are currently developing this delightful campsite to feature a rustic structure in the dell, that will have electricity that guests can use.

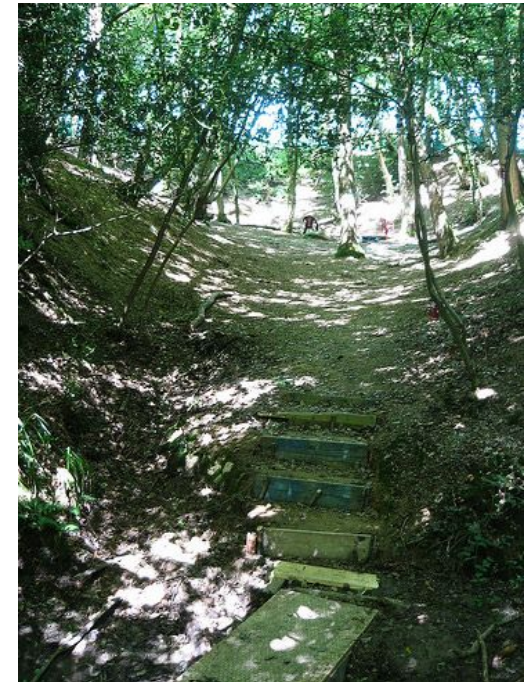

We are installing fairy lights and bunting around the trees and a very high quality small sound system - with speakers in the trees. Please note that the music can certainly be turned up loud enough to enjoy, but a professional sound limiter is installed so as not to disturb the neighbours or wildlife. We would need to agree a music cutoff time.

There is also a big firepit to enjoy, surrounded with rustic wooden benches and picnic tables.

The Dell campsite also features a pond, rustic festival style access steps, and a more accessible entrance.

The Dell In The Woods features a huge central firepit and large reclaimed wooden picnic tables. The lovely historic village of Hawkhurst in Kent (which was known for its smuggling operations back in the day!), is just a few minutes drive and features two Inns and several shops, and two supermarkets (Waitrose and Tesco).

Road access is via the improved A21 from London and the nearest rail station is Etchingham with excellent links to London.

Accommodation: All our campsites offer a fun selection and comfy different luxury glamping options to give a 'glamping village' feel. Bedding can be anything required according to budget; the images below are based on Egyptian cotton fabrics and towels with cosy duvets for each guest. Accommodation option examples could be (but not limited to); lovely traditional Bell Tents, Yurts, Tipis and the very cool new Unidomes.

Most clients select shared glamping with typically up to 5 or 6 guests sharing each bell tent, we can also offer single or twin occupancy glamping tents. If budget allows, a great addition to any corporate glamping events is a 'Girls' and 'Boys' Pamper tent! These large Bell Tents have electricity, mirrors, lighting, hair dryers and points for electric razors and places to charge mobiles.

Catering, drinks and entertainment: We provide a variety of local, wholesome food including vegan and vegetarian options, but you are free to arrange your own catering. A great catering idea is exciting street food, stalls or vans and hog roasts, catering can of course be formal if required. You are free to arrange your own drinks from a supermarket - which is a great way to keep the event in budget. We can arrange Crew to run your bar, or arrange apay bar, it's up to you!

For entertainment, we have a roster of talented performers from storytellers to mesmerising fire shows and musical performances as well as some great live bands and DJs. Arrange entertainment yourselves, or let us know what you'd like and we'll do it for you.
