COMPANY GLAMPING // COMPANY FESTIVALS

CONNECT PEOPLE

Getting people to connect and engage is an art we've honed over a decade of organising company glamping, festival style events.

The first thing we ask is "what are the objectives of your offsite?" From there we craft a bespoke gathering with you focussed entirely on those objectives.

BE DIFFERENT

Glamping and festival style events offer a fun, invigorating and exciting alternative to traditional meeting venues.

Whether it be 10 people for glamping, or 1,000 people with a full on company branded festival, we have the skills, experience and beautiful venues to deliver your aims.

EXCEED OBJECTIVES

To really achieve offsite objectives, nothing compares to a bespoke event where everything has been considered.

We know, the venue, the ambiance, food, facilities, entertainment and activities are all key influences of an event that will have an enduring positive outcome for our clients.
